+34744402417

Compositor

13 years working knowledge and experience with Nuke on live action and animated features. Good organisation and communication skills with a strong eye for detail, colour and composition. Able to prioritise work efficiently according to the requirements of each shot. Conscientious and used to working to tight deadlines and familiar with most project management software.

Fine art and photography background compliments compositing skills with an excellent feel for colour and design which enables an understanding of the look required and the ability to produce high quality shots and maintain sequence continuity.
